

Shanmukh Behara

Data Governance and Business Analytics

Los Angeles, CA · shanmukh.b@outlook.com · linkedin.com/in/shanmukhbehara · fromabsolutezero.github.io/My-Portfolio

SUMMARY

Data governance and business analytics professional with 8+ years at Southern California Edison, Swiggy and Uber: wildfire compliance data (HFRA and PSPS), Palantir Foundry and SAP master data at a utility, and fraud-risk and program strategy built on SQL sizing, champion-and-challenger tests and executive recommendations.

SKILLS

Utility data	Palantir Foundry, SAP PM and FLOC master data, SAP HANA, GIS, HFRA and PSPS data, ITSM
Data governance	SAP-to-GIS reconciliation, master data remediation, validation frameworks, metadata, KPIs
Risk and strategy	Opportunity sizing, champion-and-challenger and A/B tests, segmentation, fraud risk
Data science	Python (pandas, NumPy, scikit-learn, statsmodels), SQL (advanced), R, SAS, Excel
Machine learning	Regression, classification, tree ensembles, clustering, time-series forecasting, anomaly detection
Platforms	Power BI, Tableau, Azure, AWS (Redshift, Lambda, S3), Power Platform, REST and SOAP APIs

EXPERIENCE

Southern California Edison

Los Angeles, CA

Data Governance Advisor

Jan 2024 – Present

- Led the High Fire Risk Area (HFRA) designation data integrity program: automated the SAP-to-GIS asset comparison (every two weeks, hands-free) and remediated 85+ functional locations a month against 6/12/36-month deadlines.
- Selected for SCE's PSPS Incident Management Team, supporting data workflows during Public Safety Power Shutoffs.
- Delivered a Palantir Foundry integration syncing ITSM incident data from SAP HANA to SQL Server.
- Built the business case to retire a legacy orchestration platform, won formal architecture review approval, and led its Azure-native Python replacement, now in production for 4,000+ actions a month with a 28-test CI/CD suite.
- Implemented 22 validation checks across SAP, Azure and Power BI, cutting data defects by 42.9%; diagnosed SLA misses in SQL and redesigned reporting, raising SLA adherence from 78% to 89% and cutting backlog 31%.

Data Analyst

Feb 2023 – Dec 2023

- Designed Power BI dashboards monitoring \$1B+ in power contracts, improving compliance by 30% and saving \$5M a year.
- Automated usage and generation data pipelines in SAS and SQL, improving accuracy by 40%.
- Found recurring error patterns in SAS processes and trained 15 analysts, cutting reporting time by 30%.

Grocery Outlet

Strategy Analyst Intern

Jun 2022 – Jan 2023

- Built Python inventory models that identified \$4M in annual savings, and helped cut delivery lead time by 15%.

Swiggy

India

Senior Business Strategy Analyst

Jun 2018 – Dec 2020

- Owned program strategy for 150K+ daily orders across 12 cities, leading 10 analysts; demand forecasts cut cancellations by 20% and supply-chain analysis cut delivery costs by 5%.
- Designed an A/B-tested refund-verification strategy, from sizing the abuse to test cells, cutting refund costs by 30%.

Uber

Risk Analyst

May 2016 – Jun 2018

- Built driver and rider fraud-risk strategies, SQL detection views and segmentation that cut fraud losses by 15%.
- Built classification models that flagged high-risk transactions and fed risk-based decisioning queues.
- Redesigned the risk operations QA program, delivering 17% month-over-month throughput gains.

RESEARCH

Sole author of a data quality paper being revised for resubmission to the ACM Journal of Data and Information Quality. On 180 seeded defects, optimized check placement detected 81.7% of defects versus 69.4% for staging-only validation.

CERTIFICATIONS AND EDUCATION

FEMA IS-700 (NIMS), IS-800 (NRF), ICS-100, ICS-200; Cal OES SEMS G606; Lean Six Sigma Black Belt (CSSBB, 2020)

Professional MBA, Information Technology Track, Campbellsville University

Expected 2027

MS, Business Analytics and Operations Research, California State University. GPA 3.8, Dean's List

2021 – 2022
