

Shanmukh Behara

Utility Data Governance and Analytics

Los Angeles, CA · shanmukh.b@outlook.com · linkedin.com/in/shanmukhbehara · fromabsolutezero.github.io/My-Portfolio

SUMMARY

Utility data governance and analytics professional with 8+ years of experience, including 3 years at Southern California Edison in Palantir Foundry data integration, wildfire compliance data (HFRA and PSPS, including SCE's PSPS Incident Management Team), and SAP asset master data governance with SAP-to-GIS reconciliation.

CORE COMPETENCIES

Utility platforms	Palantir Foundry, SAP PM and FLOC master data, SAP HANA, GIS, ITSM, Azure, Power Platform
Wildfire data	HFRA designations, PSPS data support, remediation timelines, notification management
Data governance	SAP-to-GIS reconciliation, master data remediation, validation frameworks, metadata, KPIs
Analytics	Python, SQL (SQL Server, PostgreSQL), SAS, R, REST and SOAP APIs, Power BI, Tableau

EXPERIENCE

Southern California Edison

Los Angeles, CA

Data Governance Advisor

Jan 2024 – Present

- Led the High Fire Risk Area (HFRA) designation data integrity program: investigated SAP-to-GIS discrepancies, set the correct designation for transmission and distribution assets, and drove corrections in both systems of record.
- Ran monthly HFRA remediation of 85+ functional locations and structures across 3 technical teams and 5 organizations, managing notification impacts against 6-, 12- and 36-month remediation timeframes.
- Selected for SCE's PSPS Incident Management Team, supporting data workflows during Public Safety Power Shutoffs.
- Delivered a Palantir Foundry integration syncing ITSM incident data from SAP HANA to SQL Server: wrote the requirements, designed the dataset sync and secured the network egress approval.
- Led modernization of a legacy orchestration platform into an Azure-native Python pipeline, now in production for 4,000+ actions a month; it passed formal architecture review with a 28-test CI/CD suite.
- Designed a 22-check data validation framework across SAP, Azure and Power BI, cutting monthly data defects by 42.9%, and standardized reporting that raised SLA adherence from 78% to 89% and cut backlog by 31%.

Data Analyst

Feb 2023 – Dec 2023

- Designed Power BI dashboards monitoring \$1B+ in power contracts, improving compliance by 30% and saving \$5M a year.
- Automated usage and generation data pipelines in SAS and SQL, improving accuracy by 40% and saving \$2M a year.

Grocery Outlet

Strategy Analyst Intern

Jun 2022 – Jan 2023

- Built Python inventory models that identified \$4M in annual savings, and helped cut delivery lead time by 15%.

Swiggy

India

Senior Business Strategy Analyst

Jun 2018 – Dec 2020

- Drove operations strategy for 150K+ daily orders across 12 cities, leading 10 analysts; demand forecasts cut cancellations by 20% and supply-chain analysis cut delivery costs by 5%.
- Designed and launched an A/B-tested refund-verification strategy that cut refund costs by 30%.

Uber

Risk Analyst

May 2016 – Jun 2018

- Developed fraud-risk strategies, SQL detection views and segmentation that cut fraud losses by 15%.
- Redesigned the risk operations QA program, delivering 17% month-over-month throughput gains.

RESEARCH

Sole author of a data quality paper being prepared for the ACM Journal of Data and Information Quality: an eight-type check taxonomy and a stage-placement framework, tested on 180 seeded defects across 18 mechanisms. Optimized placement detected 81.7% of defects versus 69.4% for staging-only validation and cut mean defect propagation from 1.40 to 0.60 stages.

CERTIFICATIONS AND EDUCATION

FEMA IS-700 (NIMS), IS-800 (NRF), ICS-100, ICS-200; Cal OES SEMS G606; Lean Six Sigma Black Belt (CSSBB, 2020)

Professional MBA, Information Technology Track, Campbellsville University

Expected 2027

MS, Business Analytics and Operations Research, California State University. GPA 3.8, Dean's List

2021 – 2022
